Setting Up Your Account

Many of the digital resources available to our students are offered through MOBIUS and EBSCO. These resources are easily available to those on a computer connected to the university's servers, however, in order to access these resources from a personal computer at home, students must set up a special library account. Follow the How To link below for directions on setting up your account. Use the My Account link to proceed in setting up your account. If you have any questions or need assistance throughout this process, please see a library staff member.
