STUDENT SPOTLIGHT

State Tech was proud to have Ariana Nordmann and John Skaggs represent the College at the 39th Annual Missouri Governor's Student Leadership Forum on Faith and Values, held February 12–14, 2026, in Jefferson City. This prestigious statewide forum brings together student leaders from Missouri's colleges and universities for meaningful dialogue on servant leadership, faith, and the values that guide ethical decision-making in public service and business.

Designed to challenge participants to think differently and engage in thoughtful discussion, the Forum provides students the opportunity to connect with leaders in politics and industry while exploring how faith and values shape leadership. We are proud of Ariana and John for representing State Tech and for their commitment to leading with integrity as they help shape the future of our state.
